GoCabby

by LapCabby

Capacity:

- Stores, charges and simultaneously synchronises 16 tablets with or without protective cases.
- Accommodates all USB - powered tablets including iPad, Android tablets, Kindle Fire and more*. Protective cases include **GRIPCASE**, Otterbox, Griffin Survivor and other similar sized cases.

Exterior Design:

- Telescopic trolley handle for easy movement.
- 2 wheels and 4 feet to protect the GoCabby when open.
- Two handles at each side allow the case to be carried safely.

Interior Design:

- Tablets are placed in a supportive foam for protection. Two velcro straps cover each row of tablets to hold them in place when being transported.
- Foam lined compartment can house a laptop, its charger and Apple TV device.
- Holder for a WiFi router and patch lead to an external RJ45 Face plate.
- Case fully lined with foam for added protection for contents inside.

Power Management:

- The Charge & Sync functionality is provided by the U16S Cambrix technology enclosed in the centre console.
- The intelligent charging allows you to charge multiple types of devices at the same time ensuring they all get the right amount of power.
- Devices of the same type can also be synchronised all in one go saving you time when deploying apps and content.
- The future proof design means that the boards are upgradeable so they can keep up with the current technology available.
- Internal 13amp double socket for powering the router and the laptop.

Cable Management:

- Space-saving USB cable management keeps the cables compact, neat and tidy.
- Power is supplied to the GoCabby by a 2 metre mains cable with detachable IEC lead.

Air Ventilation:

- Fan inside keeps tablets cool when tablets are charging with the lid closed and locked for security.

Safety and Security:

- Two locks positioned at the top of GoCabby which can be locked with padlocks.
