

# TabCabby 16H Compact Specification Sheet

## TABCAB16HC

LapCabby

New thinking in ICT storage

[www.lapcabby.com](http://www.lapcabby.com)

### Capacity:

- Universal design stores and charges 16 tablets horizontally with or without protective cases. Accommodates all tablets including iPad, Android tablets, Kindle Fire and more. Cases include Otterbox, Griffin Survivor and other similar sized cases

### Exterior Design:

- Smooth rounded corners with shock absorbing bumpers to protect tablets inside and the school walls during movement from classroom to classroom
- Lock with keys located on the top preventing damage during movement through school building
- Separate compartment with rear facing door for access to the individual AC adapters
- Innovative and tactile ergonomic handles in a variety of colours located on the top making it easy to move
- Sleek design that is children and classroom friendly without protruding parts (handles, locks etc)
- Fitted with durable 100mm rubberised castors with locking facility. Extra strength is obtained by using an 8mm gauge steel plate welded to the frame which gives the castors additional strength and rigidity by spreading the load from the castor pins to the frame of the units
- L shaped doors for complete access to the unit
- Heavy duty steel frame with strong MFC cladding

### Interior Design:

- Fixed angled metal shelves allow easy and fast access to each tablet
- Simple cable storage system keep cables compact, neat and tidy
- Separate compartment for AC adapters and power supply - only accessible via a concealed door releases
- All cables, power strips and the Power7 Energy Management System are kept in a completely separate compartment for added safety and to prevent children from accessing and removing AC adapters and cables

### Cable Management:

- Cables cannot be removed from the front of the unit to prevent cables from going missing
- Each tablet is positioned on the fixed shelf to ensure the tablets power socket is easy to access from the front of the unit (depending on the model of tablet loaded inside)
- AC adapters and power supply are stored in individual separate compartments to keep cables neat and tidy at the side of the trolley

### Power Management:

- Power7 Energy Management System can be programmed to suit your schedule. Seven different charging schedules, one for each day of the week, allows charging between lessons, overnight or during Economy 7 (UK) or lower rate energy hours. Digital timer is supplied as standard with all trolleys
- All tablets are charged simultaneously with sequential switching facility to prevent circuit breakers from overloading

### Air Ventilation:

- Specifically designed and tested air venting system to keep tablets cool while the unit is locked and the tablets are charging

### Safety and Security:

- Concealed latch to release side doors to separate electrical compartment for child safety
- A robust dual locking system with locks located on top of the trolley to avoid damages to the lock and key during movement within the school, especially through doorways. Additional keys are available

### Dimensions:

- Unit size: W620 x D437 x H1030mm
- Maximum storage area per tablet: W220 x D344 x H41.5mm

### Warranty:

- 2 years with an option to extend to 5 years
- Supplied fully assembled

### Colour Options:

Blue

### Certifications:

## Upgrade Features

### Connect

With its integrated D-Link access point, the TabCabby Connect tablet trolley upgrade allows each tablet quick and easy WiFi access

### Ready4Connect

This option provides the same benefits at the TabCabby Connect. But, for an unrivalled level of customer flexibility, we allow users to incorporate their own preferred hardware or utilise hardware they may have already purchased

### Charge&Sync

You can add this feature to store, charge and synchronise 16 tablets. Details available upon request.
