20th September 2011

Dear Nigel,

Western Business has always been very efficient and professional in any dealings we have had with them. Nigel has always been prepared to offer advice and suggest the best options open to us so we can move forward with our ICT. Craig and his team have worked hard in school to set up the cabling and new laptops and computers we have ordered.

I would not hesitate in recommending Western Business due to their professionalism, reliability and consistency in delivering an efficient service. They are always on the end of the phone and quickly send off quotes and order goods. Julie in the office is always prepared to find things out and help in any way possible in a cheerful and friendly manner.

Yours sincerely,

C. A. Howarth,
Senior Teacher.
